

# 4 3.5kW portable electric vehicle charging box

With voice prompt, charging state real-time display; Output current 5A~16A can be customized, can be booked charging; With high temperature detection, leakage protection, over and under voltage protection, lightning protection and other detection protection functions

<b>Specifications</b>	Output voltage range	Single phase 220~240VAC
	Connection wiring mode	L, N, PE (16A plug)
	Maximum input current	16A
	Frequency	50Hz
	Maximum current output	5A、8A、10A、13A、16A
	Leakage flow value	≤38mA
<b>Exterior structure</b>	Size (L*W*H)	220*94*72mm
	Housing material	ABS+PC
	Net weight	≤2KG (With head)
	Output wire length	5M
	Status display	1.3 inch OLED
	<b>Environment</b>	Operating temperature
Humidness		Max. 95% (relative humidity)
Altitude		≤2000m
IP rate		IP55
Cooling mode		Natural cooling
<b>Protection mechanism</b>	Against Low voltage, over voltage, lightning strike protection, grounding fault, over current, control signal fault detection protection, leakage protection, over temperature, relay contact fault detection protection	
<b>Standard</b>	GB / T 18487.1 - 2015, GB / T 18487.2 - 2017, GB / T 20234.1 - 2015, GB / T 20234.2 - 2015, GB / T 20234.3 - 2015, GB / T 27020 - 2015, GB / T 24658
